

Guidelines for Music Players

- Please play solo music on a **rotating** basis. Please start playing the solos after 5 minutes into the session and continue down the list to make sure we get as many solos played as possible. Start at the top of the list and **check mark** each skater as their music is played. If a skater is away, add an **A** for absent by the skater's name. If a skater is in a lesson, the music player will add an **L** (for lesson) by the skater's name and continue with the next available skater on the list. Continue down the list until all music has been played. Repeat this procedure until the end of the session.
- At the end of the session, please draw a thicker line after the last skater's music that was played. This way, the music player will know where to begin on the following session.
- Every session will begin with the first available skater **after the last check mark from the previous week.**
- Only a **COACH** can request a skater's music. The coach may request their student's music up to (or portion of) 2 times during a lesson. Please place a **C** (for coach request) instead of a check mark by the skater's name.
- The above system is the fairest way of ensuring that each skater has an equal opportunity to skate to his/her music. Music players should make every effort to play each skater's music at least once during a session.
- Buy-on skaters **will not get their music played until** every registered skater on the session has had their music played.
- Symbols to remember:
 - ✓ when a skater's music has been played
 - A** when a skater is absent
 - C** when a coach requests a skater's music to be played
 - L** when a skater is in a lesson

please draw a thicker line where you finish for the day

'The work of a volunteer makes everything shine more brightly'

Thank you!

To All Music Players: PLEASE REMEMBER TO,

- **Submit your Volunteer Hours Log Spreadsheet**
- Use the Langley Skating Club Volunteer Form found on our website, under the volunteer tab, on the top of the main page
- You may use the **QR code** below to record your hours
